2. Comment. Since

leave the Dessau training area on 1 October, it is believed that the bridging operations observed were concluding exercises in which no major units of other branches of service participated. Last year, bridges over the Elbe River were built in this area on 11 October in conjunction with the maneuvers of the Eighth Gds Necz Arry.

3. Comment. Since 15 September 1953, component units of the 9th Necz Div have continuously used the Weisswasser troop training grounds for firing practices.
